

K9 Immune Dog

Double Immune Support!

K9 Immune Dog is the first formula designed to support the body's own immune shields in two powerful ways:

Shield #1: Good Guy Probiotics are the first line of defense. More than one billion good guys help repel bad guys, and aid in bowel-intestinal function.

Shield #2: Master Antioxidant *GSH (Glutathione) shields are lowered by chemical induced oxidative damage. Our landmark

Glutathione (GSH) is a molecule which is found inside every cell. Because of its prime placement, it is an excellent antioxidant as it can neutralize free radicals internally. It has also been shown to help the liver remove harmful chemicals and pollutants.

Serving Information:

90 scoops per 7.6oz can. One dog = three months of servings. K9 Immune Dog can ALSO BE USED FOR CATS! Dosage is 1/4 scoop per day.

Directions For Use:

Feed one scoop per day. Provide at meal, mixed into wet or dry food. Multiple feedings may offer greater benefits. Divide total into 2 servings per day. In other words: 1/2 scoop in the morning and 1/2 scoop in the evening. Refrigerate after opening. May safely be doubled for giant breeds or dogs with compromised immune systems. Ask us for more information.
